

VisualWRAP requires the following:

- Windows 95..XP
- MS Internet Explorer

Please note that while VisualWRAP is officially not supported under Vista, it can be made to run under Vista or Windows 7 with some special tweaks. If you wish to run VisualWRAP on Vista or Windows 7 you must contact the software author ( [info@visualwrap.com](mailto:info@visualwrap.com) ) for assistance. For more information please see this link:
